

PRESS RELEASE

September 5, 2012

Re: Announcement

SurePath Solutions Inc. of Calgary, AB Canada, is very pleased to announce its merger with Etelligent Solutions Inc. The merger, completed in August 2012, brings together two companies into a single entity and single brand, "Etelligent Solutions Inc."

Etelligent Solutions has a solid representation of the Microsoft Dynamics GP product line, and SurePath Solutions, has a focus on the Microsoft Dynamics NAV business solution. Together, they will create a formidable regional firm with software and services for Microsoft Dynamics Enterprise Resource Planning (ERP), Microsoft Dynamics Customer Relationship Management (CRM), Microsoft SharePoint, and custom application development.

"This new team will ensure consistency in both customer and employee relations. Our customers will have access to the same high level local support they have come to know, as well as, many enhanced services through this merger. We look forward to continuing to provide seamless ERP and related services to our existing Dynamics customers," said Darcy Quast, owner of SurePath Solutions.

These two award winning firms have a long history of growth and profitability and a vision for the future. All of the Surepath Solutions team members will join the Calgary office and continue in their respective roles.

Don Prefontaine, CEO of Etelligent Solutions Inc describes the merger of the companies as "Etelligent is continuing to focus on expanding its available consulting services, becoming less specific to the software tool used as the foundation, while delivering the operational functionality and business intelligence required by its valued clients."

"We are extremely excited to be able to offer multiple ERP solutions to meet the needs of the different industries that drive the Alberta economy through the blending of Etelligent and SurePath. We have had the pleasure of working with the SurePath team in Calgary for several years, and have been very impressed with SurePaths' skills and dedication to customer service." said Don Prefontaine, CEO at Etelligent Solutions. Prefontaine went on to say, "We are looking forward to providing the choice of ERP's through both offices, along with the same or even better levels of care and attention to our customers that we have been providing for the past 18 years."

Effective September 1, 2012, our contact information (for correspondence, billing, payments, etc) has changed to:

Etelligent Solutions Inc.
